

avet-usa Bucketless Mopping System

Clean Green with **SPEED-MOP**

Cost Effective - 3 times faster productivity than conventional string mops, effectively covering 22" or 16" per stroke. Approximate fluid used: 2.5 Gallon-traditional mop & pail 8 oz. Speed-Mop

Hygienic - Uses a clean flat mop every 1,500 sq. ft.

Convenient - with one tank you can clean up to 2,500 sq. ft. Quick on the spot change of flat mop head using reliable Velcro exchange system Fast change of solution tank refill. One twist and you are ready to go.

Efficient - No need to change water, refill mop buckets, or wring out string mops. Saves time and money, and reduces fatigue. Spotless mopping. Eliminates water drops common in conventional string mops.

Easy and lightweight - Handles like a dust mop.

Environmentally friendly - Uses less water and chemical products.

Better cleaning with micro fiber - More aggressive and effective than conventional textile string mops. Ideal for vinyl, ceramic tile, slate tiles, wood, or polished stone floors. Cleaning solution is sprayed through a pressure pump system.

Safe - Short drying time helps to prevent slip and fall accidents and reduces liability.

Don't forget to order your mop heads, see below.
